

ALARMS & ELECTRICAL SERVICES

A1 ALARMS & ELECTRICAL

'First-class service from A1. Would highly recommend them to anyone'

– John McGuirk, Liverpool

You get two great companies in one with A1 Alarms & Electrical. Richard Williams' family firm brings you the best in both security and electrical services. Run by Richard, wife Helen and their son, Adrian, A1 is built on recommendations from happy customers.

In fact, A1 is ranked top of all the electricians in Liverpool on freeindex.co.uk – due to the number of glowing customer reviews. Richard says: "We want our friendly staff and expertise to make clients delighted and we get lots of repeat work because of that."

Richard has been in the industry for 45 years, and set up A1 after serving his apprenticeship as an electrician.

The company specialises in all types of security installations, including the latest wireless alarms, CCTV and lighting. They also offer all electrical services from mending a fuse or

adding sockets to a full rewire. A1 Alarms & Electrical has worked on some famous landmarks in Liverpool, such as Aintree Racecourse and The Cavern Club. And A1 is the only firm in the UK to offer unique house rewiring methods that minimise damage to decor. "It means that customers save money on redecoration,"

says Richard. For further details and to read their excellent customer testimonials, visit either of their websites.
